

Giving Businesses Peace of Mind 24 Hours a Day... GUARANTEED!

Rock Solid Systems protect your business from the serious effects of data loss.

As Ireland's leading indigenous supplier of backup solutions hundreds of clients throughout the country rely on us 24 hours a day 365 days a year to protect their most valued business asset...their data.

OUR MISSION

To minimise the cost and inefficiency associated with unprotected and unmanaged data.

ENCRYPTION SHIELD

Encryption Shield™ is our industrial strength encryption solution providing "Whole Disk" encryption for clients wishing to guarantee protection of their data from unauthorised access in the case of laptop theft or loss.

Encryption Shield™ provides you with 4 distinct benefits:

Fulfils both your Legal and Moral Obligations to Your Client.

Under the Data Protection Act you have a duty of care to guarantee the integrity and availability of your client's data at ALL times. Failure to do so exposes you to loss of reputation and prosecution.

Encryption Shield™ provides that duty of care and removes any threat of legal action caused by data loss.

Protects your data from unauthorised scrutiny in the case of loss or theft.

The only person that can access the data is the person with the 20 character passphrase.

Protects your company from the effects of data loss.

What does Encryption Shield™ provide me?

- Industry Standard AES 256 Ryndael encryption.
- Data scrambled on the hard disk at all times.
- A "Rescue CD" that is kept safe and secure and that can only be activated with the relevant passphrase.

The Encryption Shield™ 3 Step Process

1. Offsite Pre – Encryption system check.

This ensures the Operating System and hardware is in good working order and that there are no viruses, etc. on the system.

2. Onsite Encryption Process: Back up and store image of hard drive to be encrypted.

Install encryption software. Create rescue CD's Train client.

3. Management: Rock Solid Systems:

- Implement the encryption policy
- Manage the passphrases – we will change the passwords every 3-6 months
- Identify and resolve errors daily;
